St. Louis, MO

Electric Drive In Movie Night

I have been working to organize activities for the upcoming National Drive Electric Week / Car Show and for the C-Car Group. The Drive-in event I have planned is on the evening of Saturday September 19th. Gates will open at 5:00 pm at the Clean Cut Creations Vintage Auto Works

<http://cleancutcreations.com>

for a gathering of EV's with a sort of nostalgic ambiance. Upon arrival vehicles will be arranged and parked to allow for drive-in viewing and a group photo. The activities will start with a mini-seminar/display of a Citi Car while the Concession stand style buffet begins. The dinner buffet menu will include Hamburgers, Hot Dogs, Corn Dogs, and BarBQ sandwiches with Potato Salad, Cole Slaw and water, Soda, etc. Then a little bit of time to just hang out and chat. Tents and tables will be available but bring your folding chairs if you would like to sit.

About 6:45 pm the buffet will close and the Snow Sled Concession stand will open. Time to prepare for the viewing of "What is the Electric Car?" by Scott DuPont. The movie highlights points of EV history with cameos of EV1, CitiCar, Zenn as well as modern day EV's like Tesla, Volt and Leaf with interviews of celebrities and authorities. The menu of the Snow Sled concession stand includes St. Louis Snow Cones, Popcorn, candies, and soda.
